Educational Applications

- Search - Teach students to use specialized information queries.
 - examples: `define: innovation`, `related:www.google.com/educators/index.html`, `allintext: Google Teacher Academy,stocks:goog`)
- Advanced Search - Have students develop information literacy skills by checking similar sites and what links to certain sites.
 - example: `related:http://www.google.com/educators/index.html`, `link:http://www.google.com/educators/index.html`
- Book Search - Publish book lists related to your curriculum using My Library. Link directly to books tagged with specific labels or keywords.
 - examples: <http://tinyurl.com/lucyslibrarypresidents>, <http://tinyurl.com/lucysscholasticlist>
- Scholar - Find out how many times a work has been cited and where that citation has occurred.

- 224 citations of **Becker: Findings from the Teaching Learning, and Computing Survey: Is Larry Cuban Right?** <http://tinyurl.com/beckercitations>
- News and Blog Search - Using Google Reader in conjunction with Google News Search, have students track presidential candidates and analyze their quotes.
